FLUSHING OF FIRE HYDRANTS

Village Public Works Department employees will be flushing hydrants May 3-5, 2011. Hydrants are flushed twice a year in order to provide our customers with the best water quality possible. The following schedule indicates the days and areas for flushing that day.

Tuesday, May 3, 2011

All areas NORTH of Main Street, State Highway 15, to the Village limits.

Wednesday, May 4, 2011

All areas SOUTH of Main Street, State Highway 15, to the Village limits.

Thursday, May 5, 2011

All areas that may be incomplete from the previous days.

If you notice employees flushing in your area, **do not run your water until they have left the area.**

If you notice discolored **cold water** in your home, do not run any hot water until your cold water is clear.

If you notice discolored **hot water**, you should flush your water heater. There is a connection for a garden hose on the bottom of most water heaters to clean any build up from the hot water tank.

Flushing ensures proper operation of hydrants and also removes loose scale accumulation from inside the water mains. Slightly discolored water may appear in your home. This does not mean your water is unsafe to drink.

If discolored water continues to be a problem, please call the Director of Public Works Carl McCrary at 779-4086.

FREE TIRE DROP-OFF Week of April 11-15, 2011

This program is for residential use only. NO BUSINESSES. Only tires 17" or less will be accepted at no charge (rims are acceptable). Limit is four (4) tires per household. Please drop tires off at the Wastewater Treatment Plant, 521 W. Cedar Street. There will be a trailer available at the plant for drop-off between 7:00 a.m. and 3:30 p.m.
